**ARMSTRONG CEILING SOLUTIONS TO INCREASE PRICE OF
MINERAL FIBER AND FIBERGLASS CEILING PANELS**

Geographic Coverage: US, Latin America, Canada
Commercial Distributors, Contractors, and Retail

LANCASTER, PA – Effective Monday, February 3rd, 2025, Armstrong Ceiling Solutions will:

- Initiate a 5% price increase on all mineral fiber ceiling panels
- Initiate a 7% price increase on all fiberglass ceiling panels

This price increase is driven primarily by energy costs and raw material inflation, which continues to remain unstable, particularly with respect to several core inputs including fiberglass scrim and fiberglass board.

For longer-term future quotes, we suggest the following pricing:

- An additional increase of 5% for quotes on or after August 4th, 2025
- Another additional increase of 5% for quotes on or after February 2nd, 2026

This Pricing Bulletin and the above guidance are based on current available information and conditions. Consistent with past practices, we will provide updated pricing information in the form of list pricing, bulletins or other notifications, as appropriate, as additional information becomes available. As always, you remain free to quote, price and contract at whatever pricing you may choose in your discretion. Please always feel free to contact your local area manager with any questions or requests for assistance.

We appreciate and thank you for your business.

Jill Crager
SVP, Sales Operations
