

January 30, 2025

Dear Flex-Ability Concepts Customer,

Due to increased costs of business, we find it necessary to increase the prices of our lower volume products. The increases are generally 5% depending on the product. **Prices for our higher volume products, such as Flex-C Trac 3 5/8", 20 gauge, will remain unchanged.** The new prices take effect 1 March 2025. All quotes given after today, for delivery March 1 or later, will use this updated pricing.

Shipping orders the same day they are received continues to be a priority for us and, thanks to our suppliers, this continues to be the case for almost all orders.

We are grateful to you, our dealers and distributors, for your support. Thank you.

Best regards,

Robert Widmer
