April 1, 2021

Valued Applegate Customer:

Due to the significant market increases of freight (in-bound and out-bound) and increasing diesel costs, Applegate Insulation is forced to implement a 16% surcharge on the outbound freight portion of your bag price, effective April 15, 2021.

This freight surcharge will be adjusted monthly according to the Diesel prices published by the US Energy Information Administration. (See [Gasoline and Diesel Fuel Update - U.S. Energy Information Administration \(EIA\)](#))

Hopefully, this trend in volatile costs will be short term. We will keep you posted on this but please give us a call if you want to discuss. If there should be any changes to this policy, we will be sure to communicate those to you.

We thank you for your continued business!

Richard Applegate
