July 18, 2022

Dear valued Owens Corning® Insulation customer,

Based on the **second quarter 2022 average of 167.12** of the [Cass Truckload Linehaul Index™](#) and consistent with our service guidelines, Owens Corning will increase its Transportation Surcharge from \$350 per truckload to **\$450 per truckload for mineral wool insulation products**. This change is **effective with orders shipped on or after August 1, 2022**.

It is our intent to continue to monitor the costs of freight; updates will be made to this surcharge in the fourth quarter if necessary.

Click to view and download the [Transportation Surcharge tables](#) for your records.

Thank you for your continued support of Owens Corning.

Sincerely,

A handwritten signature in black ink, appearing to read "Austin T. Hess".

Austin T. Hess
General Manager
North American Mineral Wool Insulation
