

METALTECH-OMEGA INC.
1735 St-Elzear Blvd. West, Laval
(Quebec) Canada H7L 3N6

Dear Customer,

For more than 60 years, Metaltech has been working in collaboration with its customers to offer quality, innovative products at competitive prices. We are proud to count you among our partners and we would like to thank you for your loyalty and trust.

In the current economic context, we have been facing a continuous increase in the cost of raw materials, such as steel (our main raw material) and this for the past 31 weeks. In addition, the cost of container fees has increased fivefold, and the scarcity of containers increases the complexity of the supply chain. Considering these elements among many others, we are forced to announce that we will proceed to another price increase of our products.

This decision is obviously not taken lightly, however, in order to ensure healthy growth and sustainability of our company, these increases will have the effect of continuing to offer you unparalleled service and quality products.

Know that we have done everything in our capacity to reduce these increases while continuing to manufacture high-quality products. We are constantly looking for solutions, however the process is long, and this price increase is now inevitable and will probably not be the last in this economic context.

Your trust, our partnership and the relationship we have with you is precious to us. We are sorry for this force majeure situation, which is beyond our control, and we thank you for your support and understanding.

Kind regards,

Bruno Tassé, Eng., MBA
Chief Executive Officer
