Experience, Above All™

**ARMSTRONG ARCHITECTURAL SPECIALTIES ANNOUNCES A PRICE INCREASE ON  
SELECT CEILINGS & WALLS SYSTEMS PRODUCTS**

Geographic Coverage: United States and Latin America  
Commercial Distributors and Contractors

LANCASTER, PA – Effective Monday, February 2, 2026, Armstrong Architectural Specialties will implement the following price increases:

- 7% increase on all metal-based products, including MetalWorks®, suspension systems, hanging kits, trim, clips, and other metal accessories
- 5% increase on all other Architectural Specialties products (excluding FeltWorks® and Infusions®), including trim and accessories
- FeltWorks and Infusions prices remain unchanged

These increases are driven by rising labor and raw material costs, which continue to remain unstable, particularly with respect to metal inputs.

Please note that the escalation table on all custom and premium quotations will apply.

For longer-term future quotes, we suggest the following pricing for 2026 and 2027:

- Additional 5% increase for quotes issued on or after August 3, 2026
- Another additional 5% increase for quotes issued on or after February 1, 2027

This Pricing Bulletin and the guidance above are based on currently available information and reflect conditions at this time. Consistent with past practices, we will provide updated pricing information in the form of list pricing, bulletins, or other notifications, as appropriate, as additional information becomes available. As always, you remain free to quote, price, and contract at pricing of your choosing at your discretion. Please feel free to contact your local area manager with any questions or requests for assistance.

As always, we appreciate and thank you for your business.

Mike Winters  
VP, Architectural Specialties
