

Valued Customer,

As you may be aware, the industry continues to experience intermittent increases in material costs, which in turn impact the pricing of tools and accessories. Unfortunately, the percentage of these increases—and the amount of advance notice provided—varies significantly. Some suppliers offer 15–30 days notice, while others provide little to none.

With that in mind, please be advised that the following manufacturers/suppliers have announced price adjustments expected to take effect within the next 15–30 days (approximately January 1, 2026). For product-specific details, please contact your Sales Representative.*

Adapa Drywall Carts (Approx. +4%)
Johnson Abrasives (Approx. +5%)
Colson Casters (Approx. +15%)
Hyde Insulation Knife (Approx. +6%)
Norton Saint-Gobain (Up to Approx. +9%)
NKI Floats (Approx. +3%)
Magic Tools (Approx. +8%)
Wind-lock "Bat" Knife (Approx. +15%)
RockEater Drywall Saw (Approx. +6%)

We appreciate your understanding, patience, and continued support as we work through these cost changes together. We wish you and your business a successful and prosperous 2026.

Regards,

- Team Wind-lock
