**March 11, 2026**

Dear Valued Customer,

**Subject:** Pricing Update – Effective April 6th, 2026

Over the past year we have worked to absorb significant cost pressures across our operations, including increases related to steel supply, manufacturing inputs, and logistics. While we have worked hard to manage these changes internally, some adjustment is now necessary.

Effective for **shipments beginning April 6, 2026**, pricing on select Structa Wire products will increase by approximately **4 % on selected products**.

Orders shipping prior to April 6th will be invoiced at current pricing. **Orders scheduled to ship on or after April 6th will reflect the new pricing structure.**

We remain committed to providing reliable supply, consistent product quality, and the technical support our customers rely on every day. We value the partnerships we have built together and appreciate your continued business.

Your sales representative will be available to review pricing details and answer any questions you may have.

**Thank you for your continued support.**
