

Dear Blue Ridge Fiberboard Customer,

Blue Ridge Fiberboard is announcing a price increase effective for all shipments on or after July 1, 2026. The price increase will be 6-8% for all products. The new, all-inclusive delivered price lists will be available shortly, which will apply to new orders shipping after July 1, 2026.

While we will honor all job quotes, they must ship before the expiration date given at the time of the quote. Job quotes that have not shipped before the expiration date, at no fault of Blue Ridge, will not be extended without the addition of the upcoming 6-8% price increase.

All of Blue Ridge's price increases have been, and will continue to be, based solely on our increased costs for raw materials, energy, labor, and transportation.

We sincerely appreciate your continued support and understanding.
