April 17, 2026

Dear valued Owens Corning® Insulation customer,

Securing delivery services and managing increased freight rates associated with transporting goods continues to be a challenge. Internal actions alone are no longer sufficient to address the increasing freight and fuel costs.

Effective on all orders shipped on or after April 24, 2026, Owens Corning Sales, LLC (“Owens Corning”) will increase its Service Surcharge to \$550 per truckload with delivered freight terms (pro-rated for less-than-full truckload orders).

We continue to seek proactive internal actions to mitigate the impact of rising transportation and fuel costs on the company’s ability to reliably serve our valued customers. We will take the opportunity to periodically reassess this approach and look for benchmarks to correlate the Service Surcharge to in the future.

Thank you for continuing to be a valued Owens Corning customer. We look forward to our ongoing partnership and mutual growth with Foamular® NGX®.

Please reach out to your local Area Sales Manager with any questions.

Sincerely,

Charles Smith
General Manager - Foam
