May 5, 2026

Dear valued Owens Corning® Insulation customer,

The average #2 diesel retail price through the [U.S. Department of Energy](#) has increased above \$4.75 per gallon for more than 60 consecutive days. Consistent with service guidelines, Owens Corning will increase its fuel surcharge in the United States from \$180 per truckload to **\$300 per truckload for fiberglass building insulation and unbonded loosefill (ULF) products except for shipments from California, where the surcharge will be \$330 per truckload.**

This change is **effective with orders shipped on or after May 8, 2026**, regardless of entry date. We will continue to monitor diesel prices through the [U.S. Department of Energy](#) and adjust surcharges accordingly.

Click to view and download the [Fuel Surcharge Table](#) for your records.

Thank you for your continued support of Owens Corning.

Sincerely,

A handwritten signature in black ink, appearing to read "MS", is written over a light gray background.
