PRICE ANNOUNCEMENT

Dear Leslie,

Quikrete Cement remains committed to delivering consistent, high-quality materials and dependable service across the markets we serve. While we continue to experience increasing operational costs at our plants and terminals, we also recognize the importance of taking a measured approach to pricing in today's economic environment. As a result, we did not implement our typical annual price increase at the beginning of this year.

However, due to continued cost pressures related to fuel and manufacturing, we will implement a \$5 per ton price increase for the East Atlantic and Sunshine Markets, including North Carolina, South Carolina, Florida, Georgia, and Tennessee, effective July 1, 2026.

Effective July 1, 2026, all Cement Products in the East Region Markets listed below will increase per the details below.

- Bulk Portland Cement will increase by \$5.00 per ton.
- Packaged Portland Products will increase by \$0.20 per bag.
- Packaged Masonry Products will increase by \$0.20 per bag.

July 1, 2026 price increases are effective for the following locations:

Newberry, Florida	Harleyville, South Carolina	Wilmington, North Carolina
Roberta, Alabama	Atlanta, Georgia	Savannah, Georgia
Tampa, Florida	Fayetteville, North Carolina	Durham, North Carolina
Statesville, North Carolina	Cordele, Georgia	Newnan, Georgia
Charlotte, North Carolina	Knoxville, Tennessee	

Delivered prices may be adjusted at the time of shipment in connection with changes in freight rates, taxes, environmental, and fuel costs. All sales are subject to the Company's Standard Terms and Conditions of Sale.

We appreciate your understanding and support. Your local Quikrete Cement representative is available to answer any questions regarding this adjustment.

Sincerely,

A handwritten signature in black ink that reads "Katie Nelson".

Katie Nelson
Vice President, East Region Cement
