July 17, 2026

Dear valued Owens Corning® Insulation customer,

Based on the **second quarter 2026 average of 150.1** of the [Cass Truckload Linehaul Index™](#) and consistent with our service guidelines, Owens Corning will increase its Transportation Surcharge from \$250 per truckload to **\$300 per truckload for fiberglass and loosefill insulation products**. This change is **effective with orders shipped on or after August 3, 2026**, regardless of entry date.

We will continue to monitor diesel prices and the costs of freight and adjust surcharges accordingly.

Click to view and download the [Transportation Surcharge](#) tables for your records.

Thank you for your continued support of Owens Corning.

Sincerely,

A handwritten signature in black ink, appearing to read "MS", with a large, stylized loop at the bottom.

Mike Swift
