Dear valued Owens Corning® Insulation customer,

Securing delivery services and managing increased freight rates associated with transporting goods continues to be a challenge. Internal actions alone are no longer sufficient to address the increasing freight and fuel costs.

Effective with orders shipped on or after October 15, 2026, Owens Corning Sales LLC (“Owens Corning”) will update the current surcharge structure as follows:

- The current **\$550 per truckload Service Surcharge will be removed.**
- A new indexed fuel surcharge will apply. This charge is based on the Weekly U.S. No. 2 Diesel Retail Price reported by the U.S. Energy Information Administration.
- A new indexed transportation surcharge will also apply. This charge is based on the Cass Truckload Linehaul Index™.
- Based on the tables below, the **current fuel surcharge is \$420 per delivered truckload** and the **transportation surcharge is \$300 per delivered truckload.** Both surcharges will appear on invoices and will total \$720 per truckload.
- These surcharges will remain in place until further notice.

U.S. No 2 Diesel Retail Prices (per gallon)	Fuel Surcharge per delivered TL
Below \$2.26	\$60
\$2.26 - \$2.75	\$80
\$2.76 - \$3.25	\$100
\$3.26 - \$3.75	\$120
\$3.76 - \$4.25	\$180
\$4.26 - \$4.75	\$240
\$4.76 - \$5.25	\$300
\$5.26 - \$5.75	\$360
\$5.76 - \$6.25	\$420
\$6.26 - \$6.75	\$480
\$6.76 - \$7.25	\$540

Once the Cass Truckload Linehaul Index quarterly average has moved into a different pricing tier, the transportation surcharge will automatically adjust to the corresponding tier. The tiers are defined in the following chart:

Cass Index Quarterly Average	Transportation Surcharge per delivered TL
Below 125	\$0
125 to 129.9	\$50
130 to 134.9	\$100
