RE: Trim-Tex Price Adjustment, Effective November 15, 2026

La versión en español se encuentra a continuación

Dear Valued Partner,

Throughout 2026, our industry has faced steady increases in the cost of steel, aluminum, vinyl and other petroleum-based materials, along with higher energy and transportation costs. Many manufacturers in our category passed these costs along with several price increases over the course of the year.

Trim-Tex did not. We chose to absorb these rising costs for all of 2026 to support our dealers and distributors and give you stable, predictable pricing during a difficult market.

As costs continue to rise, we can no longer fully absorb them. Effective shipments on or after **November 15, 2026**, Trim-Tex will adjust pricing as follows:

- **Interior products:** 10%
- **Exterior products:** 10%
- **Code-compliant products:** 5%

Updated pricing will be available from your Trim-Tex sales representative before the effective date. We will continue to honor all valid job quotes, promotions, and programs through their stated expiration date.

We appreciate your partnership and the trust you place in Trim-Tex. Our commitment to quality products, dependable service and support for your business has not changed. If you have any questions, please contact your Trim-Tex sales representative.

Sincerely,

Michael Kohut
Vice President of Sales
